

## Alien Influences

On the sun-scorched planet Bountiful, human colonists live peacefully alongside natives known as Dancers until an unspeakable disaster devastates the colony.

Six children found dead, their bodies marked in a bizarre parody of a Dancer ritual. The crimes solution makes the situation worse, sending ripples throughout the sector, shattering lives. One man tries to heal those lives. But can he heal everyone involved, and still save himself? A finalist for the prestigious Arthur C. Clarke award, *Alien Influences* shows the talents that make Kristine Kathryn Rusch one of the most popular authors working in science fiction today.
