

A Time Past Hope

A Time Past Hope is the first book in the Time Wars series. In the late 10th millennia AD, the Earth is dying. War and pollution have taken their toll, and the human race fails to learn from their mistakes. What they don't know is that they are being watched, and that they are running out of time. A Time Past Hope takes you to the far Valus Reach, where species from around the universe are collected and reprogrammed. But not all is perfect. Take a journey with Theodore as he must learn to communicate in order to survive, and must try to escape from a nightmare, which are his own memories.
