

Fleet of the Damned (Sten #4)

Hailed as a landmark science fiction series, the Sten novels have thrilled millions of readers all over the world. Set three thousand years in the future, they tell the tale of a tough, street-wise orphan who escapes his fate as factory planet delinquent to become the strong right-hand of the most powerful man in the Universe—a virtually immortal figure known to his billions of subjects as The Eternal Emperor. THE FOURTH ADVENTURE Sten had barely scraped through Imperial flight school when he was assigned a tacdivision in the Fringe Worlds, where Imperial officers are more concerned with the perfect fit of their dress whites than honing their fighting skills. The enemy Tahn couldn't have picked a better time or place to launch an attack against the Empire. Sten and his men are outgunned with no reinforcements in sight. It looks like Sten's number is up. But if he has to go, he won't go alone ... THE STEN SERIES Sten The Wolf Worlds The Court of a Thousand Suns Fleet of the Damned Revenge of the Damned The Return of the Emperor Vortex Empires End
