

Scouts Honor: A Planetary Romance (Volume 1)

When Terran Scout David Rice climbs from the wreckage of his starships escape pod, he finds himself transported from the space age to the steam age in the blink of an eye. Drawn to the sounds of fighting, David immediately throws himself into a desperate battle against overwhelming odds to save the life of a beautiful young princess. Now, marooned without hope of rescue, David is swept into a world of steam-powered airships, treacherous pirates, brutal savages, bloodthirsty monsters, royal machinations, and plots within plots, where matters of strength and honor are most often settled with the clash of swords. As he struggles to learn the strange ways of this new world and who he can trust, one thing becomes clear to him: he must put aside his growing feelings for Her Highness and do everything in his power to return her to her family, even though this means giving her up to the prince shes pledged to marry. Told in a relentlessly fast-paced and breathless style, SCOUTS HONOR is an exciting modern homage to the classic tales of planetary romance made famous by writers such as Edgar Rice Burroughs and Leigh Brackett, as well as the cliffhanger-driven energy of the early science fiction movie serials. If you like your heroes unabashedly heroic, your heroines feisty and true, and your plots filled with dangers, twists, turns, and double-crosses upon triple-crosses, youll enjoy SCOUTS HONOR.
